## AMENDMENT TO APPLICATION

SIR:

Applicant hereby responds to the Office Action dated 5/26/06 by amending the claims herein. The applicant references a telephone interview with the Examiner on 6/7/06 in which the Applicant and Examiner discussed amending the independent claims in such a manner so as to more fully distinguish this art from the prior art cited (DeLaHunee and

Uchida). The Applicant and the Examiner agreed on general language to be added to the independent claims regarding elements that describe "means of organizing and ranking said digital records based on chronology and clinical utility in treating a patient" and also "means for outputting said organized records based on said organization and ranking." The Applicant respectfully points out that the description of these organization and ranking elements are described in detail in numerous places in the original and amended specifications of this application.
